

ELENCO DELLE PUBBLICAZIONI di Elena Comparini

1. C. BALLARDINI, E. COMPARINI, Campi elettromagnetici in cavita` risonanti con pareti simmetricamente assorbenti, RIV.MAT.UNIV.PARMA **2** (1976), 269-276
2. E. COMPARINI, Onde e.m. di tipo trasversale in una guida dielettrica, RIV.MAT.UNIV.PARMA **5** (1979), 819- 825
3. E. COMPARINI, Onde TE, TM in guide dielettriche, RIV.MAT.UNIV.PARMA **7** (1981), 285- 295
4. E. COMPARINI, On a class of non linear free boundary problems, BOLL.UN.MAT.ITAL. **E 2** (1984), 187- 202
5. E. COMPARINI, R. RICCI, D.A. TARZIA, Remarks on a one-dimensional Stefan problem related to the diffusion-consumption model, Z.ANGEW.MATH.MECH. **64** (1984), 543- 550
6. E. COMPARINI, D.A. TARZIA, A Stefan problem for the heat equation subject to an integral condition, REND.SEM.MAT.UNIV.PADOVA **73** (1985), 119- 136
7. E. COMPARINI, R. RICCI, On the swelling of a glassy polymer in contact with a well-stirred solvent, MATH.METHODS APPL.SCI. **7** (1985), 238-250
8. E. COMPARINI, R. RICCI, C. TURNER, Penetration of a solvent into a nonhomogeneous polymer, MECCANICA **23** (1988), 75-80
9. E. COMPARINI, On a model for quasi-steady freezing processes of saturated porous media, 5th ISGF (Jones & Holden eds.) Balkema, (1988), 41-49
- 10.E. COMPARINI, R. RICCI, Convergence to the pseudo-steady-state approximation for the unreacted core model, APPL. ANALYSIS **26** (1988), 305-325
- 11.E. COMPARINI, R. RICCI, A free boundary problem in acrosomal elongation,

MATH. COMPUT. MODELLING **13**,1 (1990), 49-54

- 12.E. COMPARINI, C. MANNI, On a model for the temperature distribution in moving bimetallic strips, *MECCANICA* **25** (1990), 115-123
- 13.E. COMPARINI, C. MANNI, A mathematical model for the production of bimetallic strip, Proc. 4th Europ. Conf. Math. in Industry (H.Wacker, W.Zulehner eds.), Teubner - Kluwer, (1991), 243-247
- 14.E. COMPARINI, C. MANNI, An approximation of the thermal field in a continuous casting process of a thin metal layer, *MATH. METH. APPL. SC.* **14** (1991), 217-226
- 15.E. COMPARINI, A one-dimensional Bingham flow, *J.MATH.ANAL.APPL.* **169** (1992), 127-139
- 16.E. COMPARINI, A. FASANO, The effect of temperature on the dynamics of a phytoplankton population, *Nonlinear Anal.-TMA* **20** (1993), 1355-1367
- 17.E. COMPARINI, R. RICCI, J.L. VAZQUEZ, Asymptotic behavior of the solutions of a nonlinear Fokker-Planck equation with Dirichlet boundary conditions, *J.MATH. ANAL. APPL.* **175** (1993), 606-631
- 18.J. CHADAM, X. CHEN, E. COMPARINI, R. RICCI, Traveling Wave Solutions of a Reaction-Infiltration Problem and a related Free Boundary Problem, *EJAM* **5** (1994), 255-265
19. E. COMPARINI, E. DE ANGELIS, Flow of a Bingham fluid in a concentric cylinder viscometer, *Adv. in Math. Sc. and Appl.* **6** (1) (1996), 97-116
- 20.E. COMPARINI, P. MANNUCCI, Penetration of a wetting front in a porous medium interacting with the flow, *NoDEA* **4** (1997), 425-438
- 21.E. COMPARINI, Regularization procedures of singular free boundary problems in rotational Bingham flows, *ZAMM* **77**, 7 (1997), 543-554

- 22.E. COMPARINI, P. MANNUCCI, Flow of a Bingham fluid in contact with a Newtonian fluid, *JMAA*, **227** (1998), 359-381
- 23.E. COMPARINI, M.UGHI, Shock propagation in a one-dimensional flow through deformable porous media, *MECCANICA*, **237** (2000), 1-14
- 24.E. COMPARINI, R. GIANNI, P. MANNUCCI, A free boundary problem in absorbing porous material with two fronts, *Adv. in Math. Sc. and Appl.* **11** (2) (2001), 603-622
- 25.E. COMPARINI, M.UGHI, On the existence of shock propagation in a flow through deformable porous media, *B.U.M.I.* (**8**) 5-B (2002), 321-347
- 26.E. COMPARINI, R. RICCI, Polymer crystallization waves, *RIMUT*, **XXXVII** (2005), 207-221
27. E. COMPARINI, M.UGHI, Shock propagation in a flow through deformable porous media: asymptotic behaviour as the porosity approximates a constant, *M3AS* **17**, 8 (2007), 1261-1278
- 28.E. COMPARINI, M.UGHI, Shock propagation in a flow through deformable porous media: possible degeneration of the hyperbolic problem, *Adv. in Math. Sc. and Appl.* **17** (2007), 23-35 .
- 29.E. COMPARINI, F.TALAMUCCI, A General model for wax diffusion in crude oils under thermal gradient, *APPLIED AND INDUSTRIAL MATHEMATICS IN ITALY II*, eds. V. Cutello, G. Fotia & L. Puccio (2007) 259-270.
- 30.E. COMPARINI, M. UGHI, Shock Propagation in a flow through deformable porous media *Communications to SIMAI Congress*, Vol. **2** [DOI: 10.1685 / CSC06169] (2007).
- 31.E. COMPARINI, C. PESCATORE, M.UGHI, On a quasilinear parabolic system modelling the diffusion of radioactive isotopes, *RIMUT* **XXXIX** (2007) 127-140.
- 32.E. COMPARINI, R. DAL PASSO, C. PESCATORE, M.UGHI, On a model for the propagation of isotopic disequilibrium by diffusion, *M3AS* **19** (2009) 1277--1294.

- 33.E. COMPARINI, A. MANCINI, C. PESCATORE, M.UGHI, On a model for the codiffusion of isotopes, (SIMAI08), APPLIED AND INDUSTRIAL MATHEMATICS IN ITALY III, eds. E. De Bernardis, R. Spigler & V. Valente (2009) 256-267.
- 34.E. COMPARINI, A. MANCINI, C. PESCATORE, M.UGHI, Numerical results for the codiffusion of isotopes, Communications to SIMAI Congress, Vol.3 (2009) [DOI:10.1685/CSC09231].
- 35.E. COMPARINI, M.UGHI, Initial behaviour of the characteristics in the propagation of isotopic disequilibrium by diffusion, MATH. METH. APPL. SC. **34** (13) 1553-1684 [DOI:10.1002/mma.1470] (2011).
- 36.E. COMPARINI, M.UGHI, Large time behaviour of the solution of a parabolic-hyperbolic system modelling the codiffusion of isotopes, Adv. in Math. Sc. and Appl. **21** (2) - (2012), 305-319
- 37.E. COMPARINI, M.UGHI, On the asymptotic behaviour of the solution of the characteristics in the codiffusion of radioactive isotopes with general initial data, RIMUT, **44** (suppl) -(2012), 133-151.
- 38.E.COMPARINI, M.UGHI, On a multidimensional model for the codiffusion of isotopes: existence and uniqueness, to appear on MATH. METH. APPL. SC. (2015).
- 39.E.COMPARINI, M.UGHI, On a multidimensional model for the codiffusion of isotopes: localization and asymptotic behaviour, to appear (2015).
